👤 Profile

❖ Software developer with 8+ years of experience in web and mobile apps development, currently working as Senior Frontend Developer in the development of slot machines games for the online market.

❖ I enjoy front-end development and do not see a better line of work for me, especially in React, React Native, android and iOS (swift). Project Management and Scrum methodology are others of my passions.

❖ Currently diving deeper into Javascript for web games using Pixi.js and WebGL.

❖ Even if I consider myself as frontend developer, I also used backend technologies as Firebase from Google and EC2, CloudFront, S3, Route 53, IAM and AWS Amplify from Amazon.

❖ Colleagues know me as a highly creative developer who can always be trusted to propose a new approach. But I know that user experience and good performance comes first, so I never try to impose my ideas on others.

❖ I can (and often do) work well alone, but I'm at my best collaborating with others.

🧠 Skills

Javascript + Pixi.js

React Native

React

Firebase

Android

Swift

Project Management

Scrum

AWS

💼 Employment history

Paycor/ Senior Frontend Developer.

SEP 2020 – PRESENT, Belgrade, Serbia.

❖ Facing project solutions in React (inmutable.js, redux, redux-saga, jest, redux-saga-test-plan, webdriver.io), Android and iOS. Acting as Scrum Master as second role in the team.

Marvintech d.o.o/ Senior Frontend Developer.

FEB 2020 – AUG 2020, Belgrade, Serbia.

❖ Building slot machines games for the online market using Javascript, Pixi.js and WebGL.

Marvintech d.o.o/ Project Manager (Temporal position).

SEP 2019 – FEB 2020, Belgrade, Serbia.

❖ Creating slot machines games projects, leading graphics and developers' teams. Creative process and decision making always on the agenda.

Marvintech d.o.o/ Senior Frontend Developer.

JUN 2019 – SEP 2019, Belgrade, Serbia.

❖ Building slot machines games for the online market using Javascript, Pixi.js and WebGL.

Freelancer / Android software engineer.

MAR 2019 – Jun 2019, Belgrade, Serbia.

❖ Build an augmented reality camera android library and integration with two android apps for a company based in Amsterdam.

Multiversoft SL / Full Stack software engineer.

JAN 2018 – MAR 2019, Belgrade, Serbia.

❖ After my relocation to Belgrade, Serbia I focused on the development of a real-time platform in the cloud, acquiring experience in the development of mobile platforms with React Native, React, Redux and Firebase.

❖ Beside the development of the apps for the new version of the platform I successfully maintained, fixed and versioned the previous version of the platform regarding mobile applications using iOS (Swift) and Android.

Multiversoft SL / Senior software engineer

APR 2016 – JAN 2018, Holguín, Cuba

❖ The team and I bring to production a real time platform in the cloud using Swift, Android, Java, Kubernetes, Google Cloud Platform, PostgreSQL and RabbitMQ. I was mainly focused on iOS app development using Swift.

Universidad de las Ciencias Informáticas / Software developer.

APR 2011 – MAR 2016, Havana, Cuba.

❖ Part of my job was when I was still a student, based on Android. I successfully built a starter kit for android and offline maps using Open Street Maps.

❖ After graduating, I achieved web development using Symfony2 framework, Javascript, Html and Css in a content management system project.

🎓 Education

Universidad de las Ciencias Informáticas / Bachelor 's degree.

2008 – 2013, Havana, Cuba.

❖ University of Informatic Sciences. Software development process, certified with CMMI Level II.

❖ Engineering in Computer Science and Master in Management of Computer Projects, certified by the National Accreditation Board. Engineers in Computer Science with a high level of specialization in the work with Information and communication technologies.

📰 Projects

2020

- ❖ Find My Car app is a demo free project using react native. The app is about finding your parked car in unfamiliar areas. It's available for Android and iOS in Playstore and Appstore and the source code is free in github.
  - ➢ https://play.google.com/store/apps/details?id=com.osiellima.findmycar
  - ➢ https://github.com/osielmesa/findmycar

2019

- ❖ Yuge platform involving Android and React development:
  - ➢ www.goyuge.com, merchant.goyuge.com,
  - ➢ dashboard.goyuge.com,
  - ➢ https://play.google.com/store/apps/details?id=com.goyuge.android,
  - ➢ https://play.google.com/store/apps/details?id=com.yuge.ar,
  - ➢ https://www.vuzix.com/appstore/app/yuge (Honorable Mention recipient of the Vuzix 2019 App development contest).
  - ➢ https://www.vuzix.com/appstore/app/extractory

Online slot machine games

2019

- ❖ Roxy bar, Beba Monster, Arcadia and Enchanted Jewellery are land-based and online slot machine games that use very simple graphics but modern concepts and techniques in the slot market. Marvintech team and me as Project Manager bring them to production.

  - ➢ Arcadia (working as Project manager and developer)

  - ➢ Beba monster (working as Project manager and developer)

  - ➢ Jewellery (working as Project manager and developer)

  - ➢ Hector

  - ➢ Madfox

  - ➢ Roxy bar (working as Project manager and developer)

Votephone.

2016 - 2019.

- ❖ VotePhone® is an online voting system for surveys and interactive presentations from mobile phones and tablets. Share your interactive PowerPoint and get comments, ratings and votes from your audience, live or deferred.

  - ➢ Votephone (android)

  - ➢ Votephone (iOS)

Sample projects in Github.

2020.
